

Gruppo Italiano Multidisciplinare per lo Studio della Sincopa

Advance Program

DoloMeeting Arrhythmias

**Fifth international meeting
in syncopal loss of consciousness,
cardiac arrhythmias, electrophysiology
and device implantation**

Bolzano

February 21st - 23rd, 2024

Scientific Committee

Chairman

Marco Tomaino (Bolzano)

Members

Livio Bertagnolli (Bolzano)
Luca Donazzan (Bolzano)
Massimiliano Manfrin (Bolzano)
Rainer Oberhollenzer (Bolzano)
Felix Pescoller (Bolzano)
Werner Rauhe (Bolzano)
Federica Torri (Bolzano)
Matthias Unterhuber (Bolzano)

Registration

Registration is free.

Please fill in the form you find on:

www.dolomeeting-arrhythmias.com

Official language

21/2/2024: Italian

22-23/2/24: English

Congress Venue

Eurac Research

Viale Druso, 1
39100 Bolzano

ECM

The Meeting we'll be accredited CME
for Physician and nurses

Mercoledì 21.02.2024

N° 4 MINICORSI IN LINGUA ITALIANA

dalle ore 14.00 alle ore 17.00

- 1. Casi clinici interattivi nella gestione del paziente con sincope: fenotipo ipotensivo e bradicardico**
Docenti: G. Rivasi, M. Unterhuber
- 2. Corso teorico-pratico in ambito di aritmologia invasiva**
Docenti: L. Bertagnolli, L. Donazzan, M. Manfrin, F. Torri
- 3. Corso ECG applicato alla gestione clinica del paziente**
Docenti: L. Bertagnolli, L. Donazzan, M. Manfrin, F. Torri
- 4. Ruolo dell'infermiere in pratiche cardiologiche super specialistiche**
Moderatori: M. Giacometti, M. Tomaino

Diagnostica Aritmologica: *I. Endrizzi, D. Montanaro*

Centro Scopenso:

E. Apuzzo, V. Pallweber, M. Pontalti, E. Schoepf

Sincope: *P. Frasnelli, P. Gasser, A. Pisetta*

Thursday, 22.02.24

“SYNCOPE DAY”

09.00 Invasive Treatment of Reflex Syncope

Chairs: A. Moya, R. Sutton

Role of pacing

M. Tomaino

Neurocardioablation

M. Rebecchi

Discussant: R. Maggi

**10.00 Lecture:
Expert Consensus Document on Syncope and
Hypertrophic Cardiomyopathy**

Chair: M. Tomaino

Speaker: M. Brignole

11.00 Syncope work-up

Chairs: R. A. Kenny, A. Fedorowski

**Assessment of the mechanism of non-Cardiac
Syncope by 24-hour Ambulatory Blood Pressure
Monitoring and Tilt-Table Short Cardiovascular
Autonomic Function Battery (2-Steps)**

G. Rivasi

“Tilt Fast”: a new Italian Protocol

V. Russo

New Monitoring Systems

G. Gaggioli

**12.00 Lecture:
How to stratify the Risk on Unexplained Syncope**

Chair: M. Tomaino

Speaker: R. Sutton

13.30 Hypotension, Pseudosyncope and Syncope

Chairs: F. Cacciatore, C. Mussi

**Neurovegetative Tests in Elderly: Carotid Sinus
Massage and Tilt Table Test**

M. Rafanelli

POTS and Orthostatic Intolerance

R. Furlan

**Pseudosyncope and Syncope:
Clinical Tests for a good Differential Diagnosis**

A. Fedorowski

14.45 Syncope and “Sudden Death”

Chairs: F. Rabajoli, M. Tomaino

Arrhythmogenic Right Ventricular Cardiomyopathy

A. Zorzi

Left Ventricular Systolic Dysfunction

M. Lunati

Brugada Syndrome

A. Moya

Long and Short QT Syndrome

F. Torri

Discussants:

F. Baessato, D. Solari, A. Sabatini, M. Unterhuber

**16.30 Syncope Unit: a Multidisciplinary Approach as
“Gold Standard” for a correct Clinical Management**

Chairs: I. Casagrande, G. Masotti, M. Tomaino

Lecture:

**Falls and Syncope Unit: Experience at St James`
Hospital and Trinity College Dublin**

R.A. Kenny

GIMSI (Italian Multidisciplinary Group for the Study of SYncope)

A. Ungar

*Current ED syncope management in Italian hospitals and
prospects for optimization: a national survey - F. Numeroso*

Role of the “Nurse Expert” in a “Syncope Unit” -

C. Rice

Friday, 23.02.2024

08.30 Neurocardiology

Chairs: M. Marini, W. Rauhe

Towards a better Risk Stratification for Stroke Prevention in AF

A. Zedda

Silent Ischemia during AF Ablation

A. Battaglia

CHADSVASC Score in Wearables Era

G. Viola

10.00 Lecture:

First do not Harm: Avoiding Bleeds in the complex Reality of Stroke Prevention

Chair: M. Tomaino

Speaker: R. Cappato

10.30 AF - Ablation: whats'new?

Chair : R. Cappato

One-shot PVI: old and new Ablation Energy Sources (focus on electroporation)

J. Chun

Fire & Ice Balloon

M. Manfrin

Ablation of persistent AF: an empirical anatomically guided Procedure or better Functional Mapping

H. Pürerfeller

Redo Procedure, Vein still isolated and no "Scar": what to do?

M. Cireddu

Discussants: D. Catanzariti, G. Mugnai

12.00 Lecture:

Pre-interventional prediction of CRT success: the CRT-Drive study

Chair: S. Richter

Speaker: A. Auricchio

14.00 Ventricular Tachycardia Session

Chairs: H. Pürerfeller, L. Bertagnolli

Substrate Mapping for VT in ICM: different Strategies, Similar Targets?

C. Bisceglia

Catheter Ablation should be First-line Treatment for Ventricular Tachycardia

B. Dinov

Management of Electrical Storm

R. Rordorf

Risk Stratification in Grown up Congenital Heart (GUCH) patients

R. Gebauer

Discussants: F. Guarracini, M. Maines

15.30 Pacing Session

Chairs: M. Del Greco, L. Donazzan

Key learnings: Conduction System, from Anatomy to Electrophysiological Pacing

S. Richter

Alternative pacing strategies in the absence of LV target veins

P. Mazzone

16.30 "Poster/Clinical cases" Session Awards

17.00 End of works

W. Rauhe, M. Tomaino
